anodized surface treatment**

**Anti-roll knurling**

**U-shaped tail switch**

**JETBEAM**®

**BC20-GT** OUTDOOR  
1080 LM

- **Simple and practical gear shift design from high to low:**

Low **120** lumens

High **1080** lumens

**JETBEAM**®

**BC20-GT** OUTDOOR  
1080 LM

**Mode changing: twisting the flashlight head**

Fasten and loosen the head quickly for gear shift on turn as high > low.

**Power on/off: click the tail switch**

**Tactical switch, press to power on**

U-shaped tail design for easy operation with gloves, and also avoid switch pressing by mistake.

Double press on the tail switch for gear shift on turn as high > low
