

Greater compatibility

Stainless steel spring guide

Four battery slots in completely independent control

Dynamic battery capacity display

Reverse polarity protection

Indoor charging and vehicle charging

Specifications:

Input voltage: AC 100~240V 50/60HZ or DC 12V

Input power: 10W

Output voltage: 4.2V \pm 1% / 1.48V \pm 1%

Output current: 375mA \times 4 / 750mA \times 2

Dimensions: 139mm \times 96mm \times 36mm

Weight: 156g (without batteries and power cord)

Compatible with:

Li-ion: 26650, 22650, 18650, 17670, 18490,
17500, 17335, 16340(RCR123), 14500, 10440

Ni-MH / Ni-Cd: AA, AAA, C
